1 BACKGROUND

The EAC Scholarship Programme (EACSP) is a regional initiative of the East African Community (EAC) and the Federal Republic of Germany. Implemented by the Inter-University Council for East Africa, the Programme seeks to develop future leaders who will contribute to regional integration and sustainable development by supporting students to pursue Master's studies in an EAC Partner State other than their country of citizenship. The Programme was launched in 2018 and has already supported 180 Master's students from across the East African Community through its first Phase. Building on the success of Phase I, Phase II commenced in October 2025 and is expected to support at least 280 students across three cohorts from all current EAC partner states: *Burundi, the Democratic Republic of the Congo, Kenya, Rwanda, Somalia, South Sudan, Tanzania, and Uganda*. The Programme provides scholarships to academically talented but financially disadvantaged students pursuing eligible Master's programmes in *Mathematics, Engineering, Informatics, Science, Technology and Business-related* disciplines. In addition to financial support, scholarship recipients benefit from leadership development, mentoring, networking opportunities and regional integration activities designed to strengthen cooperation among future leaders in East Africa. The vision of the Programme is: **"Leadership to Foster Regional Integration."**

Female applicants, persons with disabilities and applicants from other disadvantaged backgrounds are strongly encouraged to apply. The Programme aims to achieve at least 50% female participation among scholarship beneficiaries.
